## EDUCATION

### Bachelors in Computer Science(BSCS)

University Of Lahore, Deffence Road Campus

09/2016 - 01/2022

Lahore, Pakistan

## WORK EXPERIENCE

### Frontend Web Developer

Stack 360

12/2022 - Present

Lahore, Pakistan

#### Achievements/Tasks

- Designed and developed responsive user interfaces using modern frameworks like React and Vue.js, ensuring cross-browser compatibility.
- Collaborated with designers and backend developers to implement seamless and user-friendly web experiences.
- Optimized web performance, reducing load times by up to 30% through efficient coding and asset management.
- Built reusable components and libraries, streamlining development processes and enhancing team productivity.
- Integrated APIs to enable dynamic functionality, such as real-time data updates and interactive features.

### Frontend Web Developer

MikroStar Tech

12/2021 - 05/2022

Lahore, Pakistan

#### Achievements/Tasks

- Assisted in designing and developing responsive web pages, ensuring a seamless user experience across devices.
- Improved website performance by optimizing assets and implementing efficient coding practices.
- Developed reusable and modular components, reducing development time for future projects.
- Worked on debugging and resolving UI issues to ensure polished and user-friendly applications.
- Collaborated with the backend team to integrate APIs, enabling dynamic functionality and data-driven components.

## PROJECTS

### EarnIt (09/2024 - Present)

- Developed the EarnIt platform's frontend using Next.js, enabling users to earn money through games, cashback links, referrals, and ads. Leveraged SSR, SSG, and Tailwind CSS for performance, SEO, and responsive design. Implemented API-driven features and state management for real-time updates, sessions, and transactions, delivering a scalable and user-friendly platform.

### Maiko Chat (08/2023 - 02/2024)

- Designed the frontend using NextJs and implemented real-time interactions using Socket.io, ensuring seamless and responsive communication across the application. Migrated the backend from Firebase to MongoDB, enhancing scalability and providing a more robust infrastructure for handling growing user data and application requirements.

### Coach Catalyst (01/2023 - 07/2023)

- Developed responsive web pages using Vue.js and Tailwind CSS, ensuring a seamless user experience across various devices. Integrated API-driven dynamic features to enhance interactivity and boost user engagement. Successfully migrated a project from Vue 2 to Vue 3, leading to improved performance and modernized features. Efforts also included resolving frontend bugs, significantly improving overall functionality and user experience.
